

December Growing Guide

With the festive season well upon us, it's not too late to get some more edibles growing! Keep in mind with the rising heat your garden may need some extra love and water during December.

HERBS

It's a great time of the year to start up a herb garden with your favourite herbs, to garnish the perfect holiday dish! Herbs well suited for planting in December include:

- Basil
- Chives
- Parsley
- Rosemary
- Sage
- Thyme

VEGGIES

This is the perfect month to plant some fast-growing greens to brighten any summer salad and keep you busy in the garden over the holiday period! Vegetables to sow or transplant as seedlings in December include:

- Asparagus
- Beans
- Cucumber
- Pumpkin
- Silverbeet
- Sweetcorn
